

Finished Barn

Barns can be insulated and finished on the outside just like a regular wood built pole building.

As low as \$12,000 per complete stall for a barn with roof. **Not installed.**

As low as \$15,000 per stall for a barn with insulation, steels siding with soffits and fascia all trimmed out.

Cupolas and insulated barb end doors are standard options.

Erecting Triton™ framework is easy with our pre-fabricated steel welded frames.
Each stall takes about 1 hour to erect.

Wood can simply be dropped-in to Triton™ pre-fabricated stall frames.

The next step is to add appropriate insulation.

Finally, choose steel siding, roof and trim colors to complete your barn!
